IMPORT OF VEGETABLE SEEDS.

The Government of India have recently noticed certain advertisements issued by some of the seed firms in India offering imported vegetable seeds for sale. These advertisements are misleading. Under the existing orders of the Government of India import of vegetable seeds, other than late cauliflower seeds, for commercial purposes is strictly prohibited. The Government of India state that no seed merchant has been given permit to import such seeds. The public, therefore, should be on guard against such advertisements. Seed merchants are also warned against advertisements of imported seeds which are not genuine.
